### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-12 is the inclusion in claim 1 of the lavatory basin having a concave-shaped bowl formed from pliable interwoven members, the bowl having a top and bottom surface, an upper annular peripheral edge and an opening formed in a lower portion, a first sealant layer coating the bowl bottom surface, the first sealant layer having a bottom surface, a fibrous cloth having a top and bottom surface, the fibrous cloth top surface adhered to the first sealant layer bottom surface, a second sealant layer coating the fibrous cloth bottom surface, and a third sealant layer coating the bowl top surface. None of the art cited disclose these concepts.

The primary reason for the allowance of claims 13-16 is the inclusion in claim 13 of the lavatory basin having a concave-shaped wicker bowl having a top and bottom surface, an upper annular peripheral edge and an opening formed in a lower portion, a first sealant layer comprising at least one coating applied to the bowl bottom surface, the first sealant layer having a bottom surface, a fibrous cloth having a top and bottom surface, the fibrous cloth top surface adhered to the first sealant layer bottom surface, a second sealant layer comprising at least one coating applied to the fibrous cloth bottom surface, a third sealant layer comprising at least one coating applied to the bowl top surface, and a cylindrically shaped drain pipe inserted through the opening formed in the bowl lower portion, the drain pipe including an annular collar disposed at a top end for fitting around the bowl lower portion opening and a downwardly extending tubular portion for aligning with a sewer drain. None of the art cited disclose these concepts.

The primary reason for the allowance of claims 17-20 is the inclusion in claim 17 of the steps of providing a concave-shaped bowl constructed from pliable interwoven members, the bowl having a top and bottom surface and an opening formed in a lower point of the bowl, applying a first sealant layer to the bowl bottom surface, the first sealant layer having a bottom surface, permitting the first sealant layer to become tacky, applying a fibrous cloth layer soaked in a wet curable sealant to the first sealant layer bottom surface, the fibrous cloth layer having a

bottom surface, applying additional layers to the fibrous cloth bottom surface after it has hardened, permitting the additional sealant layers to cure, applying sealant layers to the bowl top surface, and permitting the sealant layers applied to the bow top surface to cure. None of the art cited disclose these concepts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
